Advani in Nizamabad
Criticises Centre

He said, "The amount of money being spent on IT is Rs 50,000 crores and UPAs were not used. It would have been a valuable investment for the Centre to spend more on national security and infrastructure."

Mr. Advani also said that the Centre should also focus on the needs of middle-class people and not just concentrate on big projects. He added, "The Centre should also focus on the needs of the middle-class people and not just concentrate on big projects."

Students hold dharna of Labour commissioner

The students held a dharna outside the Labour Commissioner’s office in Kakinada to demand justice for a young Novartis employee who was killed in a road accident.

Dr. Th Datta said, "The Labour Commissioner should take immediate action and ensure that the employee’s family is compensated."

A few thousand students from various universities in the region gathered outside the Labour Commissioner’s office to protest against the killing.

The students were pushing for the establishment of a Labour Commission in the region to ensure fair and prompt justice for the victims of such accidents.

The police registered a case under Section 302 of the Indian Penal Code and are investigating the matter.

Kidnapped child killed, cops arrest accused

Special Correspondent

A child, who was kidnapped in Vizianagaram on June 22, was killed by the kidnapper. The child’s body was found in a field near the main road.

A senior police officer said, "The child was kidnapped by a man who had been arrested earlier for kidnapping a child in the same area.

The police have issued an appeal to the public to come forward with any information that may help in identifying the accused.

Fishermen no longer depend on traditional wisdom before venturing to sea

Fishermen in the area said that they no longer rely on the traditional wisdom of their ancestors before venturing to sea. They now depend on the scientific data provided by the National Centre for Ocean Information Systems (INCOIS).

INCOIS provides accurate weather forecasts, tsunami warnings, and other critical information that help them make informed decisions.

At ease with the sea

Fishing is no longer a gamble for these fishermen. They now use the data provided by INCOIS to plan their trips.

The Centre offers a comprehensive suite of services, including tsunami bulletins, early warnings, and real-time data dissemination.

The fishermen said, "INCOIS is like a lifeline for us. We no longer have to rely on the traditional methods of our ancestors."
