**B. Queries and INCOIS Response:**

SI No	Tender Requirement	Vendor Query	INCOIS response
1	<b>M/s Spry Technocon Pvt. Ltd.</b>		
1.1	Warranty condition. Section 6 of INCOIS PUR:85/2025 and INCOIS PUR 86/2025	The vendor requested a modification to the warranty clause, proposing that, in the event of a sensor failure during the warranty period, only the failed sensor be replaced instead of replacing the entire float as stipulated in the tender document.	INCOIS clarified that the proposed amendment is not acceptable. In the event of a sensor malfunction, recovery of the affected float for sensor replacement is generally not feasible due to the non-availability of dedicated ship time for search and recovery operations. Also, the manpower, logistical effort, and costs associated with arranging a dedicated cruise for float recovery would be disproportionate to the cost of repairing or replacing the failed sensor. Therefore, the existing warranty condition requiring replacement of the entire float in the event of a sensor failure shall remain unchanged.
2	<b>M/s Pan India Consultants Pvt Ltd</b>		
	No Queries		

3	<b>M/s Samhith Marine Pvt Ltd</b>
